

Structural design of CLT buildings according to European Standards

August 5th, 2014

- 09.00-09.30 | Timber structures in Europe and Italy
- 09.30-10.00 | Introduction to Eurocodes
- 10.00-11.00 | CLT: production and mechanical properties
- 11.00-11.15 | Coffee break
- 11.00-11.45 | CLT design out- and in-plane
- 11.45-12.30 | Discussion

- 14.00-15.00 | Mechanical connections in CLT
- 15.00-16.00 | Design of CLT buildings under lateral loads
- 16.00-16.15 | Coffee break
- 16.15-17.15 | CLT buildings in seismic areas
- 17.15-18.00 | Discussion

Location

161 Louis-Pasteur Pièce | Room A707 (CBY)
Ottawa ON K1N 6N5

Roberto Tomasi, CE, Ph.D., Assistant professor
Daniele Casagrande, CE, Ph.D., Post-doc Researcher
Department of Civil, Environmental and Mechanical Engineering
University of Trento - Italy
